TECHNICAL DATASHEET

Powerflow™

COMBI 600ml

A single component manual bead applicator for cartridges and sachets

PRODUCT FEATURES:

- High quality cast aluminium handle gives a strong and lightweight design.
- Easy to manoeuvre in tight spaces.
- Sintered metal alloy catchplate is hard wearing.
- Surface hardened rod resists scoring by the sintered metal catchplate.
- Metal wear compensation sleeve protects the catch plate contact area, to increase tool life.
- Hardened rod release plate maintains high material output for the life of the tool.
- Plated metal components increase the resistance to part corrosion.
- Curved rod end creates a convenient tool support and storage device.
- With superb build quality, these tools are designed with the professional in mind and have a high service life.

The Cox Powerflow is part of a range of high-powered manual applicators. Designed for use with low to medium viscosity sealants and adhesives, the Powerflow Combi is ideal for professional and semi-professional users.
